About the Tower Press Building

The Tower Press building was built in 1907 and was designed for the H. Black Company, a noted clothing manufacturer. The recently renovated historic building offers artists and non-artists alike unique live/work spaces with a variety of modern conveniences. It is an eclectic combination of galleries, studios, businesses, and residential dwellings.

Security door in lobby requires you to "ring" for entry. Use call box to the right to ring the suite.

Security gate separates public from tenant parking. Do not go through gate, even if open.
